

Video

Stage 1 - Sensorimotor stage

Object Permanence 2

Stage 2: Preoperational Thought (2-7 Years)

- Symbols & Language, deferred imitation
- Intuitive thinking, no reasoning – logic - deduction
- No cause – effect relationship, “glass breaks”
- Labelling according to function, “bicycle = ride”
- Lack of conservation

Stage 2: Preoperational Thought (2-7 Years)

- Immanent Justice
- Graphic & mental imagery (Semiotic Function)
- Egocentrism
- Phenomenalistic Causality
- Animistic Thinking
